

Filling station ø70

Art. no. 110896

Technical Data

Type of machine:	Computer controlled gear pump
Filling capacity:	10 g - infinity g (honey)
Weight unit:	ml / g / oz
Precision:	+/- 2g
Pump capacity:	approx. 270 kg/h
Programs:	20+ options to program
Power supply:	90-264VAC 50/60Hz
Powerconsumption:	230W
Sound level:	The sound pressure level of the pump is less than 70 dB(A)
Connections:	1½" BS hose connection on both sides of the pump
Table capacity:	22 glasses (450g)
Jar size:	min. Ø30 - H30 mm max. Ø120 - H290 mm
Item#:	110896
Tariff code:	8422 3000
Packaging weight:	approx. 51 kg

Our budget filling station

Complete filling station, where the DANA api MATIC 1000 and an automatic filling table are combined into one unit.

The DANA api MATIC 1000 is a filling machine with a gear pump. A strong low voltage DC motor drives the gear pump with the help of a helical gear box. The motor is controlled by computer-based electronics, which also ensures a perfect anti-drip function. The filling machine has 20 filling programs with settings for weight, calibration factor and other filling parameters. The machine works precisely and is easy to program for different substances. As a pump, the machine works both ways and can be set to different speeds. All parts that come into contact with the substance are made from food grade plastic or stainless steel and are easy to take apart and to clean. When the machine is standing on the legs, you can use jars up to 105 mm in height.

Empty jars are placed on the table top and then transported automatically to a . Once the wire switch hits the jar, the table stops and the filling machine starts filling the jar. Once the jar is filled the table starts turning again until the next jar arrives the wire switch. The rail is very easy to adjust to different jars sizes.

In this unit, the filling machine can be adjusted both horizontally and vertically to accommodate various jar sizes.

Included fitting:

110059 Counterflow valve
115815 Dosing syringe 0-60 ml
500110F Nut for BS fitting 1½"
110065C Complete cut-off-cross ø20
110165 1½" / 38mm hose
110110A 1½" bent BS fitting
110175 1½" Hoseclamp

Various nozzles and fittings can be purchased.
