

## Technical Data

Type of machine:	Computer controlled gear pump
Filling capacity:	10 g - infinity g (honey)
Weight unit:	ml / g / oz
Precision:	+/- 1g
Pump capacity:	approx. 610 kg/h
Programs:	20+ options to program
Power supply:	90-305VAC 50/60Hz
Powerconsumption:	575W
Sound level:	The sound pressure level of the pump is less than 70 dB(A)
Connections:	2" BS hose connection on both sides of the pump
Table capacity:	48 jars (450g)
Jar size:	min. Ø30 - H30 mm max. Ø115 - H190 mm
Item#:	110885
Tarif code:	8422 3000
Weight:	56 kg

## Filling Station Ø100

Complete filling station, where one DANA api MATIC 2000+ and an automatic filling table are combined into one unit. The table consists of a stainless steel table top. In addition, there is a railing that divides the table into two sections: a feeding and a collection zone.

The DANA api MATIC 2000+ is a filling machine with a gear pump. A strong low voltage DC motor drives the gear pump with the help of a planetary gear. The motor is controlled by computer-based electronics, which also ensures a perfect anti-drip function. The filling machine has 20 filling programs with settings for weight, calibration factor and other filling parameters.

The machine works precisely and is easy to program for different substances. As a pump, the machine works both ways and can be set to different speeds.

All parts that come into contact with the substance are made from food grade plastic or stainless steel and are easy to take apart and to clean.

Including photocell and wire switch.

### Included fitting:

110075 Foot pedal  
110059 Counterflow valve  
115815 Dosing syringe 0-60 ml  
500110F Nut for BS fitting 1½"  
110065C Complete cut-off-cross ø20  
110056 Legs  
110172 2" / 50mm hose  
110130 1½-2" bent BS fitting  
110176 2" Hoseclamp
